Godin Guitars introduces the 5th Avenue Uptown LTD SilverGold

Montreal, QC – December 12, 2016. The new-for-2017 Godin 5th Avenue Uptown Ltd SilverGold is an archtop stunner that is adorned top to bottom in a rich SilverGold metallic finish. Its resonant body comes to life with the vintage twang and growl of a late 1950's and early 1960's archtop guitar thanks to a pair of TV Jones Classic pickups controlled via a 3-way toggle switch. You'll love the clean compressed treble as you solo and the classic growl & grind when you dig in. Enhance the whole experience with a Bigsby tremolo for dynamic expression and you quickly discover that this beauty is a great choice for rock, blues, rockabilly, country and more.

The 5th Avenue Uptown SilverGold is a Limited Edition guitar and includes the revolutionary Godin archtop TRIC case. Like each guitar we make, it is designed and hand built in North America by people who love guitars!

ABOUT GODIN GUITARS:

With its early beginnings in 1972, the Godin Guitar family includes 6 lines of guitars. These include the Godin electric line, Seagull, Simon & Patrick, Norman, Art & Lutherie, and LaPatrie nylon line stringed classical guitars. Based in Montreal, Quebec, this Canadian company has six factories, five of which are located in the Eastern Townships of Quebec and one located in Berlin, New Hampshire.
